Is SSD Multi-Account Hosting the same as Reseller Hosting?

Helpdesk Staff - 2020-09-01 - Comentarios (0) - SSD Multi-Account Hosting

We previously referred to our Multi-Account plans as "Reseller" hosting to distinguish it from our standard Shared Hosting plans. However, the term "reseller" appears restrictive, as you do not necessarily need to resell the accounts within your package. You can simply use it to manage multiple websites of your own and customize it any way you wish — reseller or not.
