Are there any extra fees you charge?

Helpdesk Staff - 2020-09-06 - Comments (0) - General Questions

At polur.net, we believe in no hidden fees and no unexpected cost increases during your term. Other than certain limited-time promotions we may offer from time to time, what you see on the checkout page is what you'll pay on a recurring basis depending on the length of your plan term. Please note, domain registrations are billed separately from your hosting plan (you may use a third-party domain registrar, or the competitively-priced domain registration services we offer). There may be some additional fees applicable for certain addon services or out-of-scope support services we offer. Please consult our Additional Fees page for further information to see if any of these are applicable to you.
