How do I cancel my account?

Helpdesk Staff - 2020-09-02 - Comments (0) - General Questions

We strive to keep each and every one of our customers happy with their products and services offered through polur.net. If, however, you desire to cancel your account with us, you may do so by submitting a cancellation request through your myPolur client portal by going to Services > Request Cancellation.

If there's any way we can keep you as a customer, please let us know by contacting our support team prior to submitting your cancellation request. We always try and go the extra mile to keep you happy with our services.
